ICL AccuPro 2000 Rotary Fertilizer & Seed Spreader

31-40085

Description

ICL AccuPro 2000 Rotary Fertilizer & Seed Spreader

The AccuPro 2000 is a broadcast, rotary spreader that accurately delivers seeds, fertilizers & top dressings in a uniform spray pattern making it the No.1 choice amongst professional landscaping and lawn care communities.

Featuring a substantial capacity hopper of 42 litres (22kg) distributing a spread width of 2-6 meters, the durable robust frame is supported on top of large Turf Saver pneumatic wheels allowing for easy pushing with attention to extended handles & tuff-foam grips for added user comfort when manoeuvring over both even and uneven terrains.

Assembly required.

We have a great range of products to help create the perfect landscape, so why not browse our complete Garden range.

Contact us

Ernest Doe is a long established family firm with a network of branches in the South and East of England. Managing Director Colin Doe is the fourth generation of the family to have run the business in its 100+ years of trading.

The firm supplies an incredible amount of machinery; from garden mowers and chain saws to combine harvesters and construction excavators. Our philosophy is simple to supply the best products and then to support them with the service facilities and expertise to keep them running perfectly.
