Liveryman Black Beauty Horse Clipper with Lithium Battery Pack

EF-134204

Our Price: £594

Description

Liveryman Black Beauty Horse Clipper with Lithium Battery Pack

Developed and tested in the UK, the Black Beauty has been designed to cut through the heaviest of winter coats with ease and capable of running for extended periods without over-heating.

Ideal for Professionals, Yards & anyone who demands a trouble free, hardworking machine.

Reliable- Liveryman have utilised brushless motor technology to develop a clipper that is more reliable, more efficient and more powerful than a standard clipper motor. The Black Beauty's motor has been designed to have less moving parts that are subject to wear and tear. This means less vibration, less noise and increased reliability.

Lightweight- For a large clipper, the Black Beauty is lighter and slimmer than many traditional clippers, resulting in a handset that is easy to handle, manoeuvre and will reduce user fatigue whilst clipping.

Variable Speed- Allows you to be able to adjust the speed of the blades. By slowing the speed you can further reduce the noise level and vibration of the clipper. This is particularly good for nervous horses, horses being clipped for the first time or for clipping more sensitive areas, such as heads and legs.

Clip Anywhere- The Black Beauty can be used as mains clipper, but also has the additional option to use with an external battery pack, which will give you 4 hours of clipping time with no loss of power. This gives you the flexibility to use the Black Beauty anywhere and also means you have the option to clip without cables on the floor. An extremely useful addition when clipping a restless or nervous horse. There is also a handy USB port, allowing you to charge your phone or tablet.

Always fully charge the battery after use or prior to storing for long periods of time. Charge every 3 months to prolong battery life.

Frequently used with the Liveryman Bruno Red Horse Clipper which can operate from the same battery pack and ideal for clipping & trimming sensitive areas.
