Description

Lifestyle 4.2 kW Blue Flame Indoor Cabinet Heater

***** If you require cylinder hire please speak to your local store before purchase *****

Delivering instant warmth where ever & when ever you need, a slim but mighty room heater with variable heat settings, built in Piezo ignition system and heavy duty castors for ease of movement.

Features an oxygen depletion system safety valve & flame failure device meaning the gas will automatically cut off if the oxygen levels are too low or if the cabinet should fall over.

Understated perhaps in looks alone, it will happily blend into any compact space yet more than delivers to take the chill off a cold winters day or bring much welcome heat to an area with no power supply.

Includes hose and regulator along with cylinder back support for a neat all round aesthetic.

Overall dimensions: H70cm x W40cm x D29cm.
