

Exocet Anti Wax Fuel Additive 1L

24-02010

Our Price: £34

Description

Exocet Anti Wax Fuel Additive 1L

Exocet Anti Wax is formulated to improve the cold flow and handling properties of diesel and gas oil.

The additive must be used as a preventative measure and will not work if the fuel is already waxed.

Fuel-specific tests will need to be carried out if a minimum operability temperature is required.

Used when forecast is for temperatures of $<-5^{\circ}\text{C}$ to prevent fuel freezing and 'waxing out'. Must be dosed at temperatures $>+5^{\circ}\text{C}$.

Treatment ratio - 1 litre of additive treats 1,000 litres of fuel.

Buy online and collect from the Parts Counters in one of our 19 Branches across the SE & East of England.

Please enquire for other sizes: 100ml, 200ml, 500ml, 25ltr & 200ltr (drum).

Could this Exocet Anti Wax Additive be your savour this season? Why not browse more essential products in our **Agricultural** range.
