Our Price: £20

Description

Roughneck 68046 Sharp Edge Round Point Shovel

This Round Shovel has a sharp serrated edge, ideal for digging in compacted ground, slicing through roots and opening bulk bags or bags of cement.

Built to last, it's manufactured from heavy-duty, carbon steel with a corrosion-resistant, tumble lacquered finish.

The shaft is constructed from tubular fibreglass to reduced overall weight and fitted with a soft grip, D-shaped handle for comfort in use.

Treads on the blade allow for increased pressure to be applied with reduced risk of slippage. The Power Ring socket, steel-reinforced plug, provide a stronger blade to handle connection.

Overall Length: 1070mm (42in). Blade Width: 225mm.
