Atco Quattro 22SHV Petrol Lawnmower

MT-AOMWQUATTRO22SHV

Description

Atco Quattro 22SHV Petrol Lawnmower

The high-spec Quattro 22SH V 4-in-1 mower has a variable speed adjuster, so you can regulate the walking speed to match the conditions encountered – you can take it easy or race to the finish. The handlebar can be adjusted to 3 different heights to suit and an ergonomic handle grip adds additional comfort when mowing.

Contributing further to the flexibility of use is ATCO's provision of seven pre-set cutting heights (25–77mm) and four cutting options – collection; mulching; rear or side discharge. Thanks to its four-edged Twinclip blade, which cuts and re-cuts grass clippings, the ATCO Quattro 22SH V offers a 20% improvement in collection capacity and excels when it comes to mulching performance.

Ball-bearing mounts for the wheels ensure free rolling durability, while a rugged galvanised-steel/aluminium hybrid cutter deck provides a reassuringly solid platform for the rest of the machine.

Additional features on this lawnmower include ergonomic three-position height adjustable handles for superior comfort; a sizeable 70-litre plug in fabric grass catcher for long, interruption free runs; and straightforward single point height of cut adjustment.

This model is all about versatility and user preference, ensuring that mowing a larger lawn is always a first-class experience
Suitable for gardens up to 2000m².

We are an authorised [Atco](#) dealer and can provide full service back up and maintenance for your Atco equipment.
