Description

Hayter Osprey 46 - 611 Autodrive Petrol Lawnmower

The Hayter® Osprey 46 4-wheel rotary mower with Auto-Drive has a fixed speed of 2.0mph so that you can mow your garden without having to push the mower. Recommended for medium-sized gardens or small orchards that are up to 500 square metres with uneven or sloped ground.

This mower comes with a mulch plug and is fitted with a 3-in-1 blade that can recycle your grass clippings by turning them into grass mulch and feed them back as natural fertiliser to help you achieve a luscious looking lawn. So say goodbye to having to empty your grass bag into your garden waste bin week after week.
